SKI SCOTT AND BEHAN CHOSEN FOR ALL-STARS

McGill Men on Team to Meet
Montreal League.

MCCULLOCH SUBSTITUTE.

Workout To-morrow Afternoon in
Preparation for Game on
Monday Night.

The team to represent the City League in the All-Star game against the Montreal League at the Arena on Monday evening next was announced by Manager Russell Smith last night, and in his selection he appears to have brought together the most formidable aggregation that it would be possible to play together. This game should furnish the best exhibition of amateur hockey that has been seen in many years. Montreal being the natural hub of amateur hockey, it is only to be expected that a team picked from this district should be about the last word in amateur ranks.

The team will hold a work-out at the Arena to-morrow afternoon at three o'clock, to give the men a chance to get working together. This work-out will do away with the usual fault of all-star teams, who generally depend on individual plays and players. Russell Smith says that he intends to have a TEAM, and not just a bunch of all-star players. The boys will also be given a chance to become accustomed to playing the full time. As the City League games are played in two twenty minute periods, it will give the Montreal League team a slight advantage, as their games run the full three periods. To counteract this Manager Smith has provided himself with a strong list of spares.

Team.
Goal—Scott, McGill.
Point—Spriggins, Laval.
Cover—Mugrove, Shamrock.
Centre—Behan, McGill.
Right Wing—Slater, Loyola.
Left Wing—Young, 244th.
Substitutes.
Goal—Langevin, National.
Point—Timmins, Loyola.
Cover—Brunet, Laval; Dandurand, National.
Centre—Loneragan, Loyola.
Right Wing—Richardson, 244th; McCulloch, McGill.
Left Wing—Desbiens, Laval; Gallery, Loyola.

The team appears on paper to be the best scoring and defensive aggregation that it would be possible to select from the league. In Ski Scott we have the coolest and most consistent goaler that has ever worn a McGill uniform or played in the league. He has a worthy substitute in Langevin, a newcomer to the league, but the man to whom the majority of the credit of the improvement in the National team is due.

Spriggins and Mugrove on the defence have proved their offensive worth by being the two leading scorers among the defence men in the league. The three substitutes are all men to be depended on, especially Timmins, who has really been the sensation of the league as a defence player.

The three regular forwards are also the three leading scorers in the league. Teddy Behan is a newcomer to the league, but appears about the best forward man that McGill has ever trotted out. He is a wonderful stick handler, and uses his head all the time. Billy Young needs no introduction, as Billy has been recognized for the past three years as one of the best forwards in local amateur ranks. Sig, Slater made his name last season with the Vics., but the improvement he has shown this season ranks him with the best.

Loneragan, the spare centre man, is one of the trickiest little players in the league. His strong point is his back checking. Richardson is an old hand at the game, and well deserves his place.

McCulloch has been on the McGill line for the past two years, and is a most useful man, both on the offence and defence. Desbiens was the find of the Laval aggregation this year, is fast and a good stick-handler. Gallery is playing his first year in senior company. John is an exceptionally hard worker, and fully justifies his selection.

The City League officials announce that they are purchasing special sweaters for the men, which the players will retain as a souvenir.

MEDICAL SOCIETY MEETING TO-NIGHT.

The Medical Society will meet this evening at 8.15, when Dr. Mackenzie, neurologist at the Royal Victoria Hospital, will deliver what is anticipated will be one of the most interesting addresses the Medical students have had an opportunity of hearing for some time on "Recent Phases of his Work with Treatment." Dr. Mackenzie is a McGill graduate, and has been closely connected with general and special medical practice since '93, when he received his M.D.

A. C. Farlinger will present a case report, which promises to be especially attractive. There will also be a short musical programme.

Most of the meetings of the Medical Society have been particularly well attended, and the executive wish the students to keep up the record. With "Lab." work and clinics at the different hospitals, the Meds. have not the same opportunity of "mixing" perhaps, as is afforded the students of the other faculties.

LANCE-CORPORAL KEIR NOW REPORTED KILLED

Undergraduate of Arts '17 Was
With the 5th Canadian
Mounted Rifles.

Official announcement is made by the Records' Office at Ottawa that Lance-Corporal Robert William Keir, who was an undergraduate of the class of Arts '17, is now believed killed after being posted as missing since last June. Lance-Corporal Keir was with the 5th Canadian Mounted Rifles with a number of other McGill men, and went through the fighting until last June unscathed. When the Germans attempted to break through the British line on the Ypres salient last June, the Mounted Rifles Brigade, together with other units of the Third Canadian Division, was occupying the front line, and was forced to undergo a particularly severe bombardment before the attack of the Germans. In the subsequent fighting, the Canadians were forced to withdraw slightly, and consequently many were reported missing. As no word has come from Lance-Corporal Keir in prison camps and there is no trace of him elsewhere, it is presumed that he met his death withstanding the German advance, or was killed in the bombardment which preceded it.

Lance-Corporal Keir was a student of the Montreal Presbyterian College, as well as of the Faculty of Arts, and intended entering the Presbyterian Ministry. He was born in Toledo, Ohio, on October 5, 1895, and was the son of R. J. Keir, Riverfield, Que. Lance-Corp. Keir was in his second year in the Faculty of Arts when he enlisted, and had also served in the McGill Contingent, Canadian Officers' Training Corps. He attended Ormstown Academy before coming to McGill.

According to information received by Lance-Corp. Keir's sister, Miss Mary Keir, Riverfield, Que., Lance-Corp. Keir was asked to reorganize his platoon after the officer in command had been wounded in the fighting of June 2-3. While doing this he went to the assistance of a wounded officer, and was not seen afterwards.

HEAD OF GUNNERY SCHOOL.

London advises that Capt. R. Bell-Irving, Sci. '14, has been gazetted commandant of the School of Aerial Gunnery, with the rank of temporary major while so employed. Major Bell-Irving belongs to a British Columbia family, which has given several of its members to the army, where all have made good. Two of his brothers hold high rank in the Flying Service, and have been decorated for their work. Major R. Bell-Irving joined the Royal Engineers as a Lieutenant soon after the declaration of war.

HUGHES CASE RESTS UNTIL MARCH 13TH.

It is not likely that the Athletics' Committee of Corporal Hughes and Scott cases until the date of its regular meeting on the second Wednesday in March, March 13, so McGill O Daily was informed yesterday.

Pressure of other work resting upon members of the Committee is the reason assigned for this action.

SENIOR SQUAD TO BATTLE AT ARENA TO-DAY

Medicine Players Will Meet
Science Representatives in
Game.

VICS. BEAT THE JUNIORS.

Medicine '19 and Medicine '20
Play on Campus Rink To-
night for Championship.

A game that will be of the greatest interest to all McGill hockey followers, and to the members of Science and Medicine in particular, will be staged this afternoon at the Arena, from five to six. Coach Fabe Poulis has arranged to have a team made of the members of the first team who are from Science play the Medicine men of the same team. The game should prove a good one, as the stars are pretty evenly distributed between the two faculties. In goal, McTegue and Scott will face each other, and, as both men are good in the position, there will no doubt be little scoring. Arrangements have been made with the Arena management to allow all McGill men to enter the rink for the hour free, and this should stimulate the attendance. As this amounts to a real championship match between the two faculties, a crowd is expected to help along their favorites.

On the Science team will appear the following: Scott, Fraser, Anderson, McCulloch, Poe and Beach.

The Medicine representatives are: McTegue, Whitcomb, Cully, Rooney, Behan, Robillard, Moore and Kelly will handle the match.

Interclass Hockey.

The championship of the Faculty of Medicine will be at stake when the hockey teams representing the classes of Medicine '20 and that of Medicine '19 meet on the Campus Rink at seven o'clock this evening. The team from Medicine '20 has already defeated that of Medicine '21, but the team of Medicine '19 is as yet an unknown quantity. With such a reliable goalkeeper as "Dinty" Moore in the nets, however, the Sophomores will need to exert their utmost strength to repeat their success over the Freshmen, and it is confidently expected that the work of such men as Fleck, Gibb, Upham and Caldwell, will equal that of the star '20 men. Hency will be in goal for the latter team, and others who will show up strongly will be Pendergich, McDougall and Trainor. It is expected that the rooters from both classes will be out in strength to cheer their teams on.

President Rooney, of the Hockey Club, announced last night that the first of the elimination games for the Inter-Faculty championship of the University will be played at the beginning of next week, at an hour to be arranged.

It is not as yet known if the Faculty of Law will be able to place a team in the series. If a team from that Faculty is organized, it will meet the class of Arts '20, champions of the Arts Faculty, at the beginning of the week, but if "Bunny" Galvin is unable to gather together a team, a draw will be made to decide what teams from Arts, Science and Medicine will play off the first game. The winners of this game will play off for the University championship with the remaining Faculty championship team.

Vics. Defeat McGill.

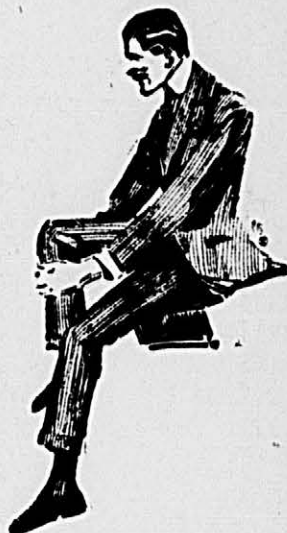

McGill Juniors lost to the champion Victoria Hockey team last night at the Arena. The game was one of the closest that have been staged in that division this year. McGill threatening to win out against the strong Vic. team on several occasions. As it was, they lost only by the odd goal in a four to three score. The game was the best that the Juniors played this year. Lowry and Rothschild played a fine game for the McGill team.

The McGill line-up was as follows: Goal—Kramer.
Defence—Rothschild and McGibbon.
Forwards—McKinnon, Lowry, McIntyre.

STUDENTS' COUNCIL.

The Students' Council meets in the Union this evening for the transaction of current business. The meeting is called for seven o'clock.

One of the nicest things about Fashion-Craft Clothes is the absence of vulgarly loud patterns of cloth or extreme styles. Fashion-Craft Clothes are worn by men who exercise discrimination in their clothing.

Ageing and Blending ROSE QUESNEL Native Canadian Tobacco

We have seen in our previous advertisements that, from the selection and first planting of the seed to the ultimate packing of the cured plant, it is a constant solicitude to the planter.

The tobacco, packed in bundles arrives at our warehouses where the stock is inspected, and, if the leaf appears to be well cured and of good quality it is "passed". Then the "hands" are packed upon each other in regular rows in large casks where they are compressed in a very solid mass and the casks stored in our cellars where the tobacco ages for two years. It is the slow, sure way of perfectly maturing tobacco in wooden casks which gives it that mellowed smoothness you taste in every pipeful of Rose Quesnel.

When perfectly aged the Quesnel Tobacco and Rose Tobacco, the two most fragrant and aromatic varieties of tobacco grown in Canada are blended by experts, in scientific proportions, the result of years of research and experiment, and, it is then ready to be cut and packed for the trade.

ROSE QUESNEL Smoking Tobacco

MILD AND NATURAL

is an ideal blend of native pipe tobaccos. You cannot get greater tobacco satisfaction than ROSE QUESNEL will give you; it is free from stinging or bite, does not dry or parch the mouth and it is cool, sweet, mild and fragrant.

Try a package

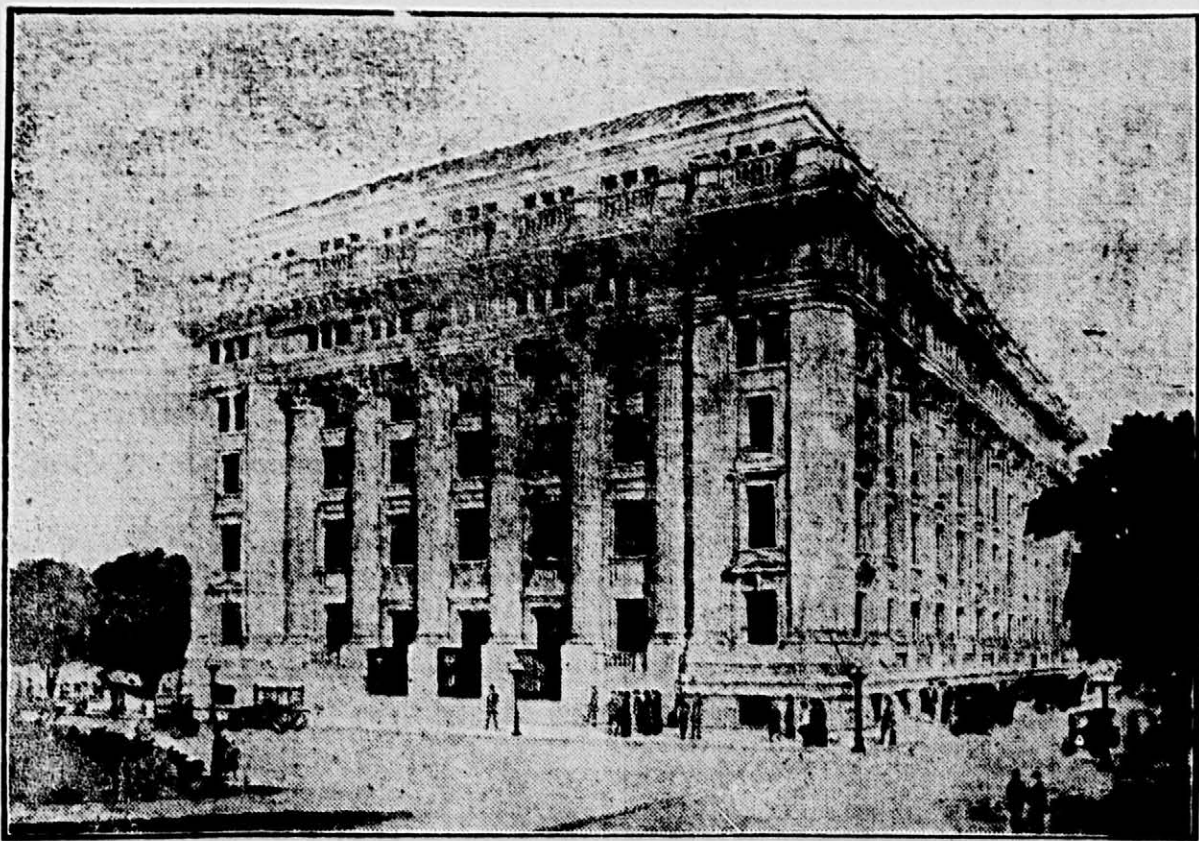

5
At all dealers.

ROSE QUESNEL Tobacco is the product of the choicest natural native leaf, properly grown, dried and cured and guaranteed free from artificial flavoring and "liquoring".

It is all tobacco and nothing but tobacco.

THE NEW HEAD OFFICE BUILDING OF THE SUN LIFE ASSURANCE COMPANY OF CANADA, DOMINION SQUARE, MONTREAL.

Incorporated in 1865, the Sun Life Assurance Company of Canada issued its first policy in 1871. In the intervening forty-five years of its active life history, it has established a record among Canadian life companies for both rapidity and solidity of growth. To-day in the wealth of its resources, in the magnitude of its operations and in the volume of its business, the Sun Life of Canada occupies a proud and commanding position as the premier life company of the Dominion of Canada.

ARTS UNDER RAD. TO HOLD SMOKER SUPPER

Faculty Function Will be Held
This Year at the Students'
Union.

The Arts Undergraduate Society intend holding a Smoker and Supper this year instead of the annual dinner. Some time ago, as announced in the Daily, the members agreed that this would be a better form of entertainment to have under the circumstances. For the last week the executive have been very busy making arrangements. Now the date is decided for Wednesday, March 14th, at the Union. The supper will be served by Joyce's, in the dining room of that building after the smoker. The talent at the smoker will be excellent, and details of the programme will be given at a later date.

The first important necessity is to get the attendance. Tickets, 75c, each, will be on sale this afternoon, and can be had from the Janitor or the social representative in each year. The members are requested to get their tickets early so as to facilitate arrangements. Inquiries have already been made for tickets, so that enthusiasm seems to have started already. Should it not have begun with some, they are reminded that this will be the last big event of the season for the Arts Undergrad., so that every member's presence is needed to ensure the biggest success of the year. It is, of course, unnecessary to state that only members of the Society can come in at the ordinary advertised rate. Further information and details will be published in the Daily from time to time.

MRS. MORGAN DEAD.

Mrs. James Morgan, who has just died at Sorel, Que., was the mother of E. A. D. Morgan, Law '82, advocate, Arts '10, of the Canadian Artillery.

LEAVES THE HOSPITAL.

London advises that Capt. R. N. Shillington, Med. '10, is sufficiently recovered from his illness to leave Gray's Inn Hospital, where he has been a patient for some time.

SCI. UNDERGRAD. MEETING.

A meeting of the Science Undergraduate Society will be held in Room 54, Engineering Building, to-day, at 5 p.m., when papers will be read by D. de C. Ross-Ross, Sci. '17, and by R. B. Clough, Sci. '17. Mr. Ross-Ross' paper will be on "Scientific Management," and Mr. Clough's on "The Cedar Rapids Manufacturing Company's Plant." The two prizes will be awarded at this meeting, and the results of the elections for the executive of the Society announced.

NOT SERIOUSLY WOUNDED.

Dr. David A. Shirres, professor of neurology, has received a cable stating that his son, Lieut. Gordon Shirres, whose name appears in a recent casualty list, is in no danger. On Feb. 21 he sustained a slight gunshot wound and is reported doing well at a hospital in France.

JOINS THE C. A. M. C.

Dr. Frank J. Scully, Med. '17, former president of the McGill Medical Society, has enlisted in the Canadian Army Medical Corps, with the rank of lieutenant, and is now at his home in St. John, N.B., before going overseas.

GIVE DIPLOMAS TO AGRICULTURISTS.

As a mark of appreciation of the services which they have rendered to agriculture in the province, the Faculty of Macdonald College recently decided to initiate the presenting of honorary diplomas to deserving men in the Province of Quebec. The first to be thus honored are Dr. Duncan McEachran, Dr. J. C. Chapais, Mr. Robert Ness, and Mr. Robert Brodie, and the diplomas were bestowed at one of the evening meetings of the short course which has just been concluded at the college. The four leading agriculturists were presented for their diplomas by Dr. Harrison, Professor Lochhead, Professor Barton and Professor Bunting, who briefly sketched their respective careers, and spoke of their marked services to the province and the farming interests in general.

"BILLY" GENTLEMAN LEAVES.

One of the laboratory assistants known to many of the students in the Science faculty has severed his connection with the University, in the person of William Gentleman. Students of many years have found "Billy" an ever-ready and willing assistant in the Electrical Laboratory, who would at all times enter into the spirit of the work in hand. Mr. Gentleman was, in his early days a sportsman of some repute, winning many a prize in the circles of amateur sport in Montreal. He is a son of the famous "Corky," and his first connection with the University dates back to the days when many of the professors were in their undergraduate days.

GAULT SEPARATION CASE BEING HEARD.

Mr. Justice Weir yesterday commenced hearing the evidence in the action for separation as to bed and board which has been brought by Major Hamilton Gault, D.S.O., past student of McGill, against his wife, Marguerite Clark Stephens, and in the cross-action of Mrs. Gault for separation from her husband, who was the organizer of the Princess Patricia's Canadian Light Infantry, and served in France with marked distinction for several months, being wounded and decorated.

The evidence is being taken in camera, on the ground that a public trial would be prejudicial to public order.

Counsel for Major Gault, the plaintiff, includes G. W. MacDougall, K.C., with whom is associated N. K. Laflamme, K.C., George H. Montgomery, K.C., and Alme Geoffrion, K.C., are acting for Mrs. Gault.

PRESIDES AT MEETING.

Dr. A. W. Thornton, head of the Dental executive, will preside at a meeting in the Salvation Army Citadel, University and Cathcart streets, on Sunday at 3 p.m., when Commissioner Mapp will speak on "The World Wide Salvation Army."

SISTER OF MCGILL MAN.

Nursing Sister Isabella D. Strathy, awarded the Royal Red Cross of the Second Class, is a sister of Lieut. R. Lee Strathy, Sci. '13, who was not long ago decorated with the Military Cross. Nursing Sister Strathy is engaged to Captain Alex. O. McKim, M.C.

HIGH IN MASONIC RANKS.

Dr. A. S. Gorrell, Med. '90, of Regina, Sask., has been elected to the chief office within the gift of the Grand Chapter of Royal Arch Masonry, that of Grand Z.

JUST TALK

—By T. J.

I was wandering around the sanctum of the Daily office the other day and happened to pick up a piece of paper torn from a book—evidently a diary. I thought that it was quite interesting, as it gives one an insight into the life of an editor, therefore I quote it in full:

SUNDAY, NOVEMBER —, 1916.

8.00 a.m.—Woke up and remembered there was hardly any copy for Monday's issue of the Daily, except a letter complaining about my criticism of the "Lit." Resolved to think of something to write an editorial on.

9.05 a.m.—Woke up again and remembered that dining room closed at 9.30. Decided I'd do without a shave. Somehow couldn't think of a subject for an editorial.

9.25 a.m.—Got down stairs to Union dining room, and had usual toast and coffee. Then down to the sanctum. Found the bunch (?) working. Room very stuffy with smoke. Sat down at typewriter to compose the editorial.

10.00 a.m.—Began to write editorial on "Early Rising," but interrupted by news editor wanting to know how to spell "phase." Couldn't remember if "ph" or "f," asked reporter who didn't know—decided to leave it to the L.T.P.R.

10.45 a.m.—Think I'll chance subject of editorial to "Concentration." Interrupted by Soph. with poem on winter, beginning, "Cold the winds blow, down comes the snow." Asked office boy to throw him out, and went on writing.

1.00 p.m.—Haven't finished editorial yet. Just remembered a date I'd made for dinner at noon. Got news editor to phone that I was ill. Ate at the Union.

2.10 p.m.—Decided to change editorial to "Love and the College Man," but am afraid there is nothing much to it. Reporter wants to know where scissors are. Find them for him in waste basket.

3.00 p.m.—Editorial begun as follows: "There are two kinds of men—those who can love and those who do." Somehow seem to have heard that sentence before—can't think where. President told me to hurry up, as he wished to use typewriter.

4.00 p.m.—Going to change subject of editorial. Had a good idea for one when Managing Editor asked for pipeful of tobacco. Find I left my pouch up in the room. Sent reporter for it.

4.45 p.m.—Talked over subject for an editorial with rest of the staff. No ideas offered. Stupid bunch.

5.30 p.m.—Resolved to write editorial on "Wasting your time," when asked by Athletics' Editor what hockey prospects were for the season. Had long discussion over merits of players, and then went to supper.

7.15 p.m.—Started to write editorial on "Habit of men in Union throwing matches on the floor." Almost finished when President of the Union tells me that they don't. Swore.

8.30 p.m.—Received telephone call from girl asking why I wasn't at church. Said I was sick. Started another editorial on "College Men and Religious Service."

9.00 p.m.—Changed subject of ed't'l to "Liar I have Known." Ribbon on typewriter gets twisted; muss up my fingers fixing it.

10.10 p.m.—News editor tells me everything ready but editorial column. 10.15 p.m.—Printer telephones that he has an editorial set up that wasn't used last week, so find I needn't write one. Why wasn't I told before? Central said I couldn't use language like I was over the phone so —

But whatever followed was written on some other page of the Dairy. Such is the merry life of a newspaper man. There is a story going the rounds of the College on one of the Medical students, and perhaps you have heard it. It seems that a number of men of the fourth year were attending a clinic at one of the city hospitals. An old man was wheeled in, in a chair by his nurse, and carefully regarded by the to-be M.D.'s. When he had been taken from the room, the doctor asked, "Well, gentlemen, what did you see?"

And a pleased voice from near the back of the room answered, "A new nurse."

This seemed to be my week for finding things. It was over on the Campus Tuesday afternoon that a sheet of paper blew against my coat, and I, noticing some writing on it, read it. I suppose it was very rude of me, but then, people should be careful of their private papers. I think it is interesting enough to quote, although I was puzzled at what it referred to until a few discreet enquiries revealed—well revealed the secret. If you are "up-a-tree" also I should advise you to ask questions also. The paper bore the marks of tear drops, the emotion of the writer evidently overcoming his manly strength. Here is the effusion:

Oh! Gymnastics; acrobatics;
All the girls upon the stage,
Demands the door-keeper of me,
"Aer you thirty years of age?"

I buy a ticket; price is small;
Then besides it is the rage.
But I'm halted at the door, by,
"Aer you thirty years of age?"

Modest maidens; sweet females;
Demure damsels, dainty clad,
A score and ten years you require,
If you're thirty, aren't you glad?

Writ o'er the doorway to the hall,
Are those fatal words I fear:
"Show credentials at the door, please,"
"Over thirty—enter here."

MET WITH AN ACCIDENT.
A past student of Science '17, Louis Hacker arrived in the city on Tuesday. During the summer, after the examination of last year, L. Hacker went to New Glasgow to work for the Nova Scotia Iron and Steel Company. While engaged in work at that place he suffered a severe injury. A piece of metal weighing over two hundred pounds fell on his foot. For a time the doctors thought that it would be necessary to amputate the foot, but by skillful work on their part, they were able to save it. For several months, indeed up to the present, L. Hacker has been confined to the house, and his trip to Montreal was the first time he had ventured to walk any distance. While still a trifle lame as the result of the accident, it is only temporary.

FOR HOUSE COMMITTEE.
R. C. Legge, Med. '19, has been elected by acclamation member of the House Committee of Strathcona Hall as a member of the second flat.

Two thousand new Springfield rifles have been given to Cornell because for the last three years it has attained the rank of distinguished institutions. These rifles were awarded by a government arsenal, and they will be immediately distributed to the companies who are at present using the old Krags.

"Old Stuff"

It is customary when advertising to college men to show a group of sturdy young savages battling their way to victory and then state that this or that article of food or raiment made the victory possible.

Shredded Wheat

certainly did not fill the above shells with these fine appearing young gentlemen. It might have helped—we know of numerous cases where it has—but it did not do it alone. You might or might not like Shredded Wheat. Most people do like it. The best way to find out is to try for yourself. You may be sure of this: Shredded Wheat is actually what it is represented to be—an exceptionally nutritious food made from the whole wheat berry. It does feed the body, give strength to the muscles and help to keep the stomach and digestive organs clean and in a healthy condition. That is all.

THE ROYAL MILITARY COLLEGE OF
CANADA.

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to Cadets and Officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst. The Commandant and military instructors are all officers on the active list of the Imperial Army sent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years in three terms of 14 months each.

The total cost of the course, including board, uniform, instructional material, and all extras is about \$300.

The annual competitive examination for admission to the college, takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the secretary of the Military Council, Ottawa, or to the Commandant, Royal Military College, Kingston, Ont.

A Good Hockey Stick Is Half the Battle

Perfectly human, of course, to go "up in the air" if your stick breaks at a crucial moment.

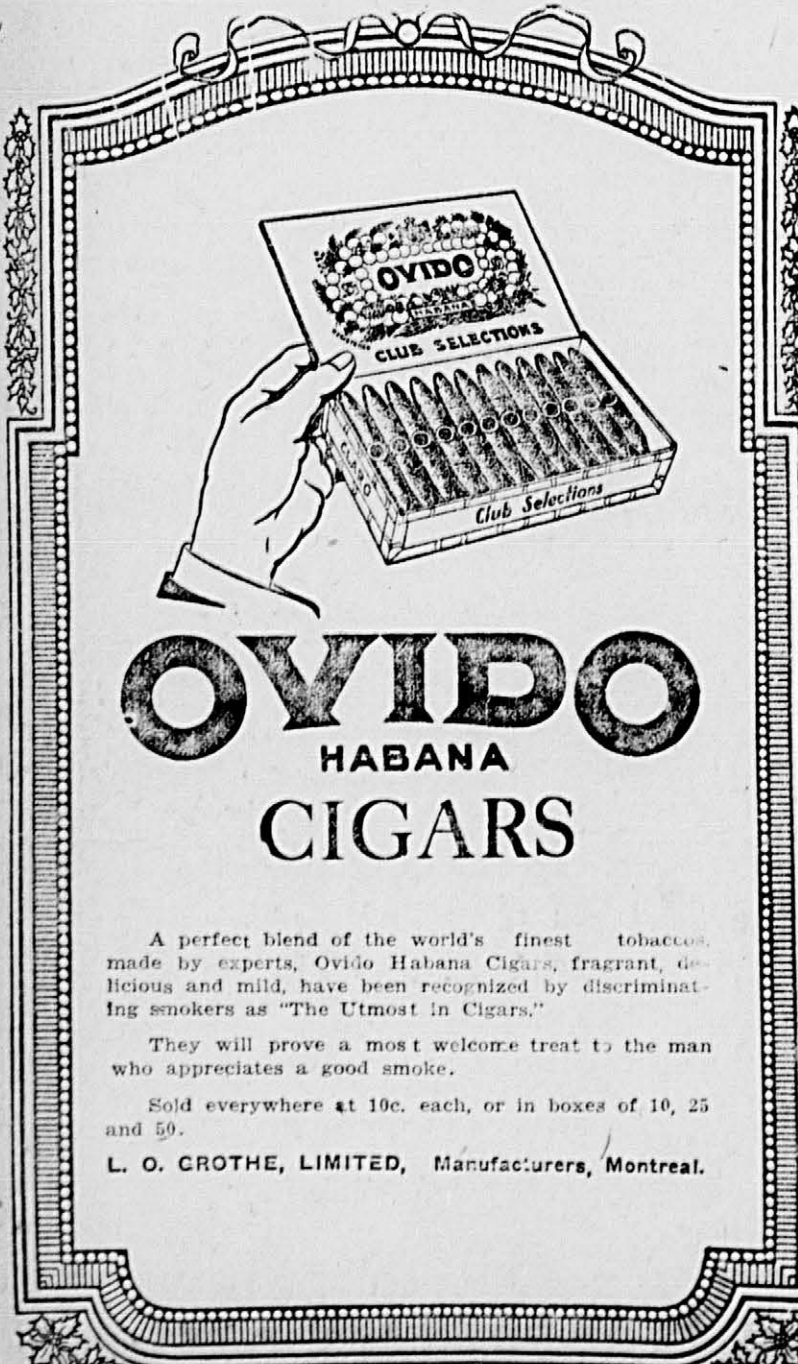

But to avoid future mistakes, make it a Spalding, and your stick troubles aren't worth mentioning.

CONGREGATIONALISTS WIN CHAMPIONSHIP

Defeated Presbyterian Basketball-
ballers by Score of 37-21 in
Final Game.

Last night the Congregational College basketball team played their last game for the season in the Theological Intercollegiate League, and beat the Presbyterians. From the commencement of the game, the play was fast and exciting. Fouls, though unintentional, were frequently called against each side. The end of the first half saw the Congregationalists leading by 23 points to 14. The second period was much cleaner than the first, the game being much freer from fouls, a fact which enabled the Congregationalists to open up their combination and score two points to their opponents' one. At the final whistle the score read, 37 to 21, which was a very fair index of the run of the play. Kelly and Steed did the major part of the scoring, the former getting 16 and the latter 15 points. The Congregationalists, though very much the smallest of the four colleges, are now winners of the Intercollegiate Basketball League for 1916-17, with an unbroken record of six wins. They scored 206 points to their opponents' 86 throughout the season.

The line-up was as follows:
Congregationalists: R. P. ... Woodhouse
Steed R. P. ... Woodhouse
Kelly L. F. ... McLellan
Jackson Centre Kelly
Plowright R. G. ... Walker
Samson L. G. ... Crewson

The league standing, with the Wesleyans still to play a game with both the Diocesan and Presbyterians, is as follows:—

	W.	L.	P.	A.
Congregationalists	6	0	206	82
Presbyterians	3	2	193	100
Wesleyans	1	3	98	84
Diocesan	0	5	39	267

AMERICAN COLLEGES AID WAR PRISONERS

Large Sums Subscribed for Re-
lief of Students in Prison
Camps in Europe.

The movement to secure a gift from the college students of America to the college students in the prison camps of Europe thus far has met with great success. Colleges from all over America have responded promptly and generously.

Some of the largest subscriptions of amounts which have been actually received in cash are contained in the list below:

University of Chicago	\$2,550.00
Cornell College, Iowa	2,165.00
Iowa State College	2,400.00
University of Minnesota	3,342.94
So. Dakota State Col.	1,811.85
Univ. of Texas	1,445.80
Yale University	5,560.25
Williams College	4,711.85
Dartmouth College	2,809.85
Oberlin College	3,500.00
Ohio State University	3,200.00

An interesting feature of the campaign has been the way a number of preparatory schools have responded.

Phillips Andover	\$3,382.00
Phillips Exeter	1,449.00
The Hill School	2,550.00
St. Paul's School	2,550.00
St. Mark's School	1,510.57

MRS. C. W. COLBY IS
NAMED PRESIDENT.

At the annual meeting of the Women's Auxiliary of the McGill Y. M. C. A. held on Tuesday in Strathcona Hall, the following officers were elected for the ensuing year:—
President—Mrs. C. W. Colby.
1st Vice-President—Mrs. R. W. Lee.
2nd Vice-President—Mrs. H. F. Armstrong.

Treasurer—Mrs. H. S. Birkett.
Sec. Secretary—Mrs. E. Archibald.
Cor. Secretary—Mrs. Turner.
The conveners for the various committees are as follows:
Finance—Mrs. D. A. Murray.
Social—Mrs. Perrin.
House—Mrs. Adams.
Hospital and Flowers—Mrs. Nichols.

LIEUT. HADLEY ON RETURN.
Lieut. Henry Hadley, Sc. '06, of the former 14th Battalion, who has been home on leave, has sailed to rejoin his battalion in England.

WHAT'S ON.

TO-DAY.
12-2 p.m.—Science Undergraduate Society Elections, Engineering Building.
5 p.m.—Science vs. Medicine at the Arena.
5 p.m.—Science Undergraduate Society meeting, Engineering Building.
7 p.m.—Medicine '19 vs. Medicine '20, Campus Rink.
7 p.m.—Students' Council Meeting, McGill Union.
8.15 p.m.—Medical Society Meeting, New Medical Building.

COMING.
March 3—Science '17 vs. Macdonald College, Ste. Anne de Bellevue.
March 5—City League All-Stars vs. Montreal League All-Stars, Arena.
March 5—Mandolin Club Practice.
March 6—Nominations close for presidency of Students' Society, Students' Union, Athletic Association, Hockey Club, Track Club and Football Club, and for vice-presidency and secretaryship of Students' Union.
March 7—King Cook celebration, Students' Union.
March 8—Wicksteed Gymnastic competition.
March 10—Wicksteed Gymnastic competition.
March 12—Annual meeting, McGill Y. M. C. A., Strathcona Hall.
March 14—Arts Undergraduate Society Smoker and Supper, Students' Union.
March 16—Universal ballot for presidency of Students' Society, Students' Union, Athletic Association, Hockey, Track and Football clubs, and for vice-presidency and secretaryship of Students' Union.

500 'VARSITY GIRLS
TO WORK ON FARMS.

As a result of the signing of National Service cards by girl students resident in Annesley Hall, Queen's Hall and St. Hilda's Hall at Toronto, it is calculated that as many as 500 of these girls may spend their summer on the farm. The Y. W. C. A. has undertaken the scheme of housing the workers, and a uniform has been designed consisting of dark bloomers and khaki middie blouses. The wages will be \$1 to \$4 a day.

Miss M. E. T. Addison, Dean of Annesley Hall, who had been conferring with Miss Winnifred Harvey, of the Ontario Labour Department, about the matter, said that the women students could do this work without in any way interfering with economic conditions.

The centres from which the girls will go out will be St. Catharines, Winona, Welland and Grimsby, and as far as possible the students of the various colleges will be kept together.

FEW ELIGIBLES AT
TORONTO 'VARSITY.

There are only between 150 and 160 men fit for military service in the Faculty of Arts at the University of Toronto, President Falconer announced at the meeting of the Council of the Speakers' Patriotic League held in Toronto. These figures were obtained by the recent registration carried out in the University.

President Falconer stated that the recruitable element in the University were ready to go, and would be relieved if asked to go in such a way that would overcome the objections, often minor, that were holding them back. The men in Medicine and in Applied Science were ready to go as soon as qualified. Not including Medicine, 1,200 students stated in their registration cards that they were willing to work in agriculture and munitions. The University would release these students on April 1, and on production of satisfactory evidence of patriotic work accomplished, grant them their year's standing without examinations.

RECRUITING FOR NAVY.
C. A. Harwood, K.C., Law '93, naval recruiting secretary for the Province of Quebec, has left on a recruiting tour to include Three Rivers, Quebec, Levis, Riviere du Loup and Rimouski.

MR. COLE TO SPEAK.
"The importance of the Mining Industry to Canada," will be the subject of an address to be delivered by Mr. Arthur A. Cole, Arts '91, Sc. '94, president of the Canadian Mining Institute, before the members of the Canadian Club at their next meeting to be held in the Windsor Hotel on Monday at one o'clock.

OBJECT OF READING
DETERMINES RESULT.

It should not be forgotten that one may absorb ideas, whether from books or otherwise, with more than one ultimate result. Our object may be simply to increase the store of facts that we know. It is in that sense that reading, in Bacon's familiar words, "maketh a full man"—a condition that may or may not be of benefit to him. Or the object may be entertainment—from the most idle kind of passing of the idle hour to the noblest and best forms of mental recreation. Or the aim of our reading may be—more frequently the result is gained without aim—to stir the springs of action, to set in motion the forces that mold character, better the conditions of living, and ultimately advance civilization. The channels of ideas, such as these, whether they are men, places or books, we may and do regard with a peculiar affection. We may value and appreciate that which imparts information but we do not love it. We may seek and enjoy entertainment, but it does not inspire us with affection. But that which kindles the emotions, gives us faith to believe and power to do—that is the thing to love, and when we love books it is for the inspiration that we find in them, rather than for either information or recreation. — Christian Science Monitor.

RESIGN POSITIONS.
R. H. Stewart, Sc. '96, has resigned as general manager of the Consolidated Mining and Smelting Company of Canada, Trail, B.C., and will begin practice as a consulting mining engineer in Vancouver, S. G. Haylock, Sc. '99, assistant general manager of the company, has, it is understood, also resigned.

RECURRING RESULTS.
The following results of sessional examinations in Third and Fourth Year Applied Science are announced:

FOURTH YEAR.
Geodetic Fieldwork.
CLASS I.—Boast; McCulloch; Gardner and Mackenzie; Heartz; Richardson.
CLASS II.—Fraser and Poe; Turnbull; Smith; Curran and Hooper; Wickenden; Aggiman.
CLASS III.—Lemay and Scott and Sullivan and Trudeau; Carroll; Hunt; Peace.

Civil Engineering Course.
CLASS I.—Aggiman; Lemay and Turnbull.
CLASS II.—Boast and McCulloch; Mackenzie and Richardson; Gardner and Hooper and Sullivan and Poe; Hunt and Smith and Trudeau; Fraser and Heartz and Curran; Scott.
CLASS III.—Peace; Carroll.

Mining and Engineering Course.
CLASS I.—None.
CLASS II.—None.
CLASS III.—Cater.

THIRD YEAR.
Civil Engineering Course.
CLASS I.—None.
CLASS II.—Wickenden; McCulloch; G. D. Scott.
CLASS III.—None.

Mining Eng. Course.
CLASS I.—Roscoe.
CLASS II.—Karnes; Schiedel.
CLASS III.—None.

LEATHER JACKETS
FOR THE ENGINEERS.

"At present we are not doing much except odd jobs, and are several miles in the rear," writes Lance-Corp. H. D. Grant, Sc. '16, with the Canadian Engineers in France. "I was up quite a way on Friday, and it won't be long before we are up close and working our heads off. This should be the last year of the war, and if it is, things will certainly happen in bunches before long and we won't go stale for lack of work, believe me. And maybe I won't appreciate lots of things when I get back which I never cared about before the war."

Lance-Corp. Grant speaks of meeting several former classmates in England, and says that it has been exceptionally cold in France, but that he would sooner have it that way than rain any day. The men have been issued leather jackets, which keep the wind out and are fine to work in.

3RD. AND 4TH. YEAR SCIENCE RESULTS

Summer Essay Results Announced to Students—Geodetic Fieldwork Also Given Out.

The following results of sessional examinations in Third and Fourth Year Applied Science are announced:

FOURTH YEAR.
Geodetic Fieldwork.
CLASS I.—Boast; McCulloch; Gardner and Mackenzie; Heartz; Richardson.

ELECTION DAY IN
SCIENCE FACULTY.

To-day is election day in the Faculty of Applied Science. The students from 12 o'clock to two o'clock will vote upon the candidates offering themselves for election to the various offices of the Science Undergraduate Society. Indications are that the fight for several of the offices will be hot, and Science men are anticipating an exciting day.

The candidates are:
For President—Eric W. Camp, '18; T. J. J. Fox, '18; H. M. Roscoe, '18; and D. M. Sutherland, '18.
For Vice-President—N. J. Lake, '18; J. F. Wickenden, '18; and W. R. Way, '18.
For Secretary—W. W. Fowler, '19 (elected by acclamation).
For Treasurer—A. G. Anderson, '19 (elected by acclamation).
For Assistant Secretary—J. R. Dunbar, '20, and F. Cunningham, '20.

SERVICES RECOGNIZED.
The name of Major R. A. Bowie, Med. '91, surgeon-in-chief at Moore Barracks Hospital, Shorncliffe, has been brought to the notice of the Secretary of State for War in recognition of his services. Major Bowie was practising in Brockville, Ont., when he went overseas in the winter of 1914-15 and joined the Canadian Army Medical Corps. He was appointed second in command of the Duchess of Cornwall's Canadian Red Cross Hospital at Cliveden, and later was promoted to his present position.

RESIGN POSITIONS.
R. H. Stewart, Sc. '96, has resigned as general manager of the Consolidated Mining and Smelting Company of Canada, Trail, B.C., and will begin practice as a consulting mining engineer in Vancouver, S. G. Haylock, Sc. Men Wanted for the Navy

The Royal Naval Canadian Volunteer Reserve, wants men for immediate service Overseas, in the Imperial Navy

Candidates must be from 18 to 30 years of age and sons of natural born British subjects.

PAY \$1.10 per day and upwards. Free Kit. Separation allowance, \$20.00 monthly.

Experienced men from 38 to 45, and boys from 15 to 18 are wanted for the CANADIAN NAVAL PATROLS.

Naval Recruiting Office, Harbour Bldg., 57 Comm. William G. Ross, Director of Naval Recruiting, Province of Quebec.
Department of Naval Service, OTTAWA.

PROVINCE OF QUEBEC

DEPARTMENT OF COLONIZATION, MINES AND FISHERIES.

The chief minerals of the Province of Quebec are Asbestos, Chromite, Copper, Iron, Gold, Molybdenite, Phosphate, Mica, Graphite, Ornamental and Building Stone, Clays, Etc.

The Mining Law gives absolute security of Title and is very favourable to the Prospector.

MINERS' CERTIFICATES.
First of all, obtain a miner's certificate, from the Department in Quebec, or from the nearest agent. The price of this certificate is \$10.00, and it is valid until the first of January following. This certificate gives the right to prospect on public lands and on private lands, on which the mineral rights belong to the Crown.

The holder of this certificate may stake mining claims to the extent of 200 acres.

WORKING CONDITIONS.
During the first six months following the staking of the claim, work on it must be performed to the extent of at least twenty-five days of eight hours.

SIX MONTHS AFTER STAKING.
At the expiration of six months from the date of the staking, the prospector, to retain his rights, must take out a mining license.

MINING LICENSE.
The mining license may cover 40 to 200 acres in unsurveyed territory. The price of this license is Fifty Cents an acre per year, and a fee of \$10.00 on issue. It is valid for one year, and is renewable on the same terms, on producing an affidavit that during the year work has been performed to the extent of at least twenty-five days' labor on each forty acres.

MINING CONCESSION.
Notwithstanding the above, a mining concession may be acquired at any time at the rate of \$5.00 an acre for SUPERIOR METALS, and \$3.00 an acre for INFERIOR MINERALS.

The attention of prospectors is specially called to the territory in the North-Western part of the Province of Quebec, north of the height of land, where important mineralized belts are known to exist.

PROVINCIAL LABORATORY
Special arrangements have been made with the POLYTECHNIC SCHOOL of LAVAL UNIVERSITY, 228 ST. DENIS STREET, MONTREAL, for the analysis of minerals at very reduced rates for the benefit of miners and prospectors in the Province of Quebec. The well equipped laboratories of this institution and its trained chemists ensure results of undoubted integrity and reliability.

The Bureau of Mines at Quebec will give all the information desired in connection with the mines and mineral resources of the Province, on application addressed to

HONORE MERCIER,
Minister of Colonization, Mines and Fisheries, Quebec.
